

## **Refresher Program Guidelines**

### **Completing a Refresher Program**

Any member who has not completed a minimum of 500 TCM patient visits over each three year period may be required to complete a refresher program. The Registration Committee has developed a guideline to help members understand how they can meet the currency requirements by completing a refresher program.

The length of the refresher program that the member is required to complete depends on the number of patient visits the member has completed in the currency cycle. The refresher program may be one or more courses, taken either in person or online. The program must evaluate the member by an examination upon completion of the program.

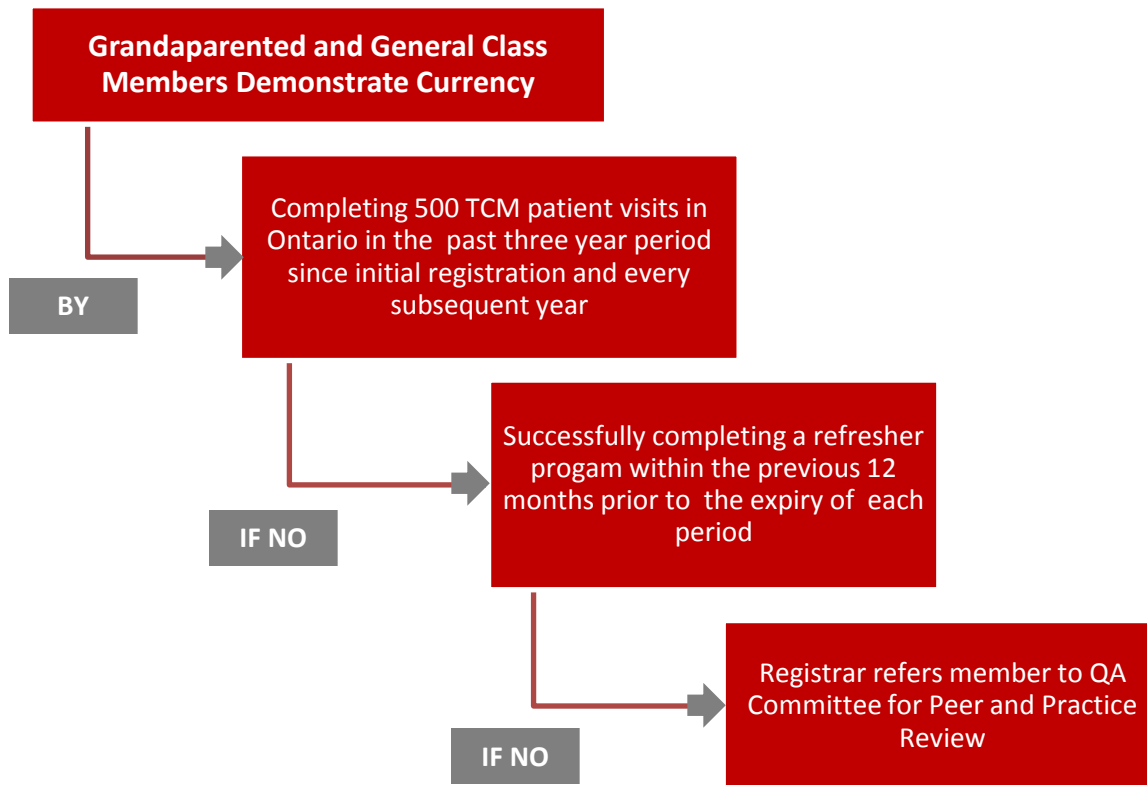

Before members begin their refresher program, they must submit their proposed program to the Registration Committee for approval. The Member will be required to submit course descriptions of their proposed program.

Members who are required to complete a refresher program must also successfully complete the College's Safety Program before the end of the three year period.

Upon successful completion of the refresher program, Members must provide the following documents to the College as evidence:

1. A notarized copy of your certificate or diploma, or provide an original letter from your educational institution confirming successful completion of the program; and,
2. a notarized copy of your academic transcript of marks.

Please see the charts on the next page for reference.

## Refresher Program Requirements
